ESPITE THE AMERICAN DERBY OVER ONE HUNDRED THOUSAND PEOPLE VISIT JACK. SON PARK-AN OFFICIAL INSPECTION OF THE EXHIBITS IN THE MANU.

· FACTURES BUILDING. Chicago, June 24.-Notwithstanding the great American Derby was run at Washington Park to-day in the presence of 75,000 people, there was a big crowd at the Fair. So little was the effect of the race on the attendance at the Fair that it could not be noticed and the Bureau of Admissions is confident to-night that the total attendance for to-day was in excess of that of yesterday, when 136,802 people passed through the turnstiles. Of these 102,551 were paid admissions. The total attendance at the Centential for the corresponding date was 31,158.

An official inspection was made of the great Manufactures and Liberal Arts Building to-day. About 600 invitations had been sent out by Chief Allison, of the Liberal Arts Department, and nearly all those invited were present. Among the distinguished per-sons who came were ex-President Harrison, Governor McKinley, of Ohio; Governor Matthews, of Indiana, and Governor Markham, of California. Director-General Davis, President Palmer and President Higginbotham, with their respective staffs, were also present.

The guests met in the south gallery of the big building.

When all had arrived Chief Allison informed them that the exhibits in his department were all completed, and that nothing remained to be done beyond keeping the display in order and repair. He then told the guests that if they would follow him he would take them on a record-breaking tour around the world. First they made an inspection of exhibits in galleries, passing through the different sections. De-

scending at the southwest stairway, the party passed through the sections allotted to the Netherlands, Switz-erland, Lendon, Norway, Denmark, Great Britain, Canada, Russia, France, Germany, Austria, Japan Brazil, New South Wales, Ceylon, the Argentine Re public, Jamaica, Turkey, Bulgaria, Siam, Korea, Mexico and the United States. After this they took the elevator to the roof, where a birdseye view of the interior of the building was had. After a promenade around the balcony of the roof and a view of Jackson Park and the grounds, luncheon was served. The party were then escorted to the electric launches in the Grand Dasin, and took a boat ride

around the park. After months of labor Commissioner Preston was able to open the Haytlan Bullding to-day. The bullding and exhibits have cost the Republic over \$100,000, and this amount judiciously expended has resulted in the construction of an unusually pretty colonial cottage and the installation of an exhibit colonial cottage and the installation of an exhibit that challenges more than passing attention. The exhibits incude a due display of vegetable and mind al products of the country. An extensive series of crayon work, illustrative of the advancement of the Haylian people, adorn the walls. At the entrance of the building is a marble statue called "La Reverle," executed by a Haylian sculptor named La Forestine, who received a gold medal for his work in 1874 at the Paris Salon.

The opening exercises were simple, and consisted

devolved the work of installing the exhibit. Several of the officers of the Exposition were present at the exercises.

The Ceylon building was thrown open to the public today without eeremony. The opening of this building has been delayed from time to time from a variety of causes. The building was constructed in Ceylon by native workmen and was put together here. It is instituted after the old Canadyan temples, the architecture of which has been observed by the Clagalese for centuries in the construction of their public buildings.

Knights Templar headquarters were observed by the Second floor of the banquet hall to-day. The headquarters for Knights Templar from all parts of the world were established by the St. Bernard Commandery of Chicago, the largest in the world, and are in charge of William Fuller. A refreshment-room and pariors for men and women have been provided. John Woodman, past commander of St. Bernard Commandery, made fie welcoming speech, which was responded to by De Witt C. Cregler. Other addresses were made by George M. Moulton, Grand Senior Warden of the Grand Encampment of the United States; James P. Sherman, Grand Senior Warden of the Commandery of Illinois, and R. E. Jenkins, of Mendota, Grand Junior Commander of Illinois. A large number of Knights Templar were present. The speeches were followed by a luncheon.

France is to have a special day at the Fair, July 14, which is observed as a National fete day through-out France. The programme of the ceremonles has not yet been settled, but Consul-General Bruwaert has the matter in hand. It is not expected that the day will in any way compare with German day, from the fact that the French Building will, however, be profusely decorated, and will be the rendgevous for Frenchmen on that day. It is probable that a dinner will be held in one of the restaurants in the Fair Grounds.

Through the efforts of Colonel Lamont, Secretary Herbert, Assistant Secretary MoAdoo, Postmaster-General Bissell and William F. Curtis, in charge of the Latin-American Bureau of the Exposition, the Spanish commander of the caravels has given consent that the feet stop at Charlotte, the port for Rochester, on Lake Ontario, for two days, Sunday and Monday, June 25 and 26.

The dedication of the Texas Building has been post-poned from July 1 to July 20, for which date an elab-orate programme has been arranged. The building is finished and the furniture, all made in Texas, is now being put in place.

Louisiana will dedicate its State building on August 10. This will be Louisiana Day and the Governor and his staff, accompanied by the Washington Artillery of New-Orleans, will be present. National Commissioner Woodard writes that the people of Louisiana intend to make a creditable show and do something worthy of their State.

FINANCIERS DISCUSS SILVER AT CHICAGO. Chicago, June 24.-Lively debate characterized the congress of bankers and financiers to-day. The gathering included a number of able men and the speeches were short and to the point. When Chair-man Parsons rapped for order the hall was well filled. The call was made for ten-minute speeches on any subject. Although there was no specified line of de bate, the sliver question was taken up by every speaker. Logan C. Murray, ex-president of the Bankers' Association, opened the discussion. Mr.
Murray attacked the policy of issuing interest-bearing
bonds by the Government, and then took up the silver
question and spoke vigorously against the free silver
men. He said that if the silver standard were men. He said that if the silver standard were adopted there would be no sale for American securities outside of this country. He added: "This country reached under its golf system a point of success unequalled by any other Nation in the world. I was told by President Harrison that he had been offered par for 2 per cent bonds. This is a position no other Nation's paper has ever attained." W. H. Willis, of Gettysburg, Penn., also severely criticised the free silver men. Congressman Bryan, of Nebrakas, made a warm speech in invor of free silver; and State Treasurer L. V. Stevens, of Missourt, made a speech on the same lines.

A ROUSING RECEPTION FOR THE CARAVELS Clayton, N. Y., June 24.-The Spanish caravels Santa Maria, Pinta and Nina, on the way to the World's Fair, passed through the intricate channels of the Thousand Islands this afternoon in tow of the tug Thomas Wilson, of Ogdensburg. The boats were escorted for a considerable distance by several ex-cursion boats bearing thousands of people. They passed here at 3 o'clock. The St. Lawrence River opposite here was thickly dotted with yachts, sail-boats and skiffs, and the docks were black with people. The facet met with a rousing reception

THE DEATH OF MINISTER M'COY Washington. June 24.—In a dispatch to the Decriment dated Mosrovia, Liberia, United States Vice-Consul Fayne confirms the report of the death on May 15 of William D. McCoy, United States Minister and Consul-General to Liberia. His death was caused by a bilious attack excited through atic influences. His body was baried in Palm Grove Cemetery near the grave of United States Minister Garnett. Unusual respect was shown by the Liberian Government, the Diplomatic Corps and the municipal authorities to his memory. ATTENDANCE NOT DIMINISHED BY RIVAL WITHOUT THEM MEASURES OF "REFORM" CANNOT BE ENACTED.

> BUT THE BOTHER OF IT ALL IS THAT THE " ODIOUS REED RULES" WILL HAVE TO BE RESORTED TO.

[BT TELEGRAPH TO THE TRIBUNE.] Washington, June 24.-Many Democratic members of the House of Representatives, long before the expiration of the last Colgress, became convinced that if the Lilld Congress is to revise the tariff, repeal the Silver Purchase law, and enact many other measures of "reform," it will be necessary for that body to frame and adopt a code of rules, which it would puzzic even a perliamentary expert to distinguish from the "odious Reed rules" of the List Congress. In fact there were Democrats who favored the adoption of that code in substance by the last Congress, adoption of that code in substance by the last Congress, but they were overruled in the Democratic caucus. It was thought to be idiculous, if not dangerous, for Democrats who had so vociferously denounced the "muzzing of the Democratic minority" in the preceding Congress to proceed deliberately "to muzzle" a Republican minority.

The result was that the House of Representative except by general or utanimous consent, or by suspending its own rules. Among the Democratic Con-gressmen who realize that the code of rules of the List Congress, or something very like it must be adopted if the Lilld Congress is to do anything, is dopted if the Lilia Congress is to do anythrest. "I think there is no doubt that the rules of the

House will have to be changed during the coming ses-sion. It is necessary that we should be able to have a better grip on legislation, or we shall find difficulty in carrying out the policy to which the party has been pledged."

"In what do you think these changes will consist? "I have not given the matter very serious consideration yet, having been occupied with other matters. Eut I should not be surprised if they were to be in the line of taking away the privileged character of the line of taking away the privileged character of some of the motions which are now used to such effect by the fillbusterers. There are three motions I may name which never fall to be used. The luexperienced fillbusters rely on them on all occasions, and they are so ready that they cannot fall to be effective. They are motions to adjourn, to take a recess and to fix a day to which the Husse will adjourn. These, being privileged motions under the present rules, have caused in the past an almost endless obstruction to business. To remove the privileged character of these motions would at once furnish very considerable relief."

DEMOCRATIC CONGRESSMEN AT SEA. JUDGE COBB DOESN'T KNOW " WHERE HE IS AT ON SILVER-HIS COLLEAGUES IN

THE SAME BOAT.

Washington, June 24 (Special).-Congressman Cobb, of Alabama, is not yet quite certain "where he is of Alabama, is not yet quite certain where he is at" on the question of silver legislation, but he "hardly thinks there will be an unconditional re-peal of the Sherman law." Judge Cobb continued: "My section of country is not specially enamoured of the Sherman act, but opposes its repeal unless some substitute is found that will give relief from the present financial stringency. My constituents are, first of all, advocates of free silver colonge, and still think Congress should pass such a measure, but if that can't be done, they would prefer to see some neasure that would approximate as nearly as possible to the benefits fley believe would flow from placing silver on an equal status with gold. They want both the financial system, as far as legislation can effect as will bring about a more equal distribution of the currency. I am not prepared to say what that modification should be in the event that free coinage falls, but will be guided by existing conditions when the time for action comes, always urging for my people more money and cheaper money. I did not favor the Sherman act or vote for it, and much prefer a system of coining silver to the plan of hearing it up in bullion form, which makes of it mere commodity."
At least five sixths of the other Democratic Con-

gressmen are in the same boat with Judge Cobb. They demand substitute legislation, but do not know what So far as the repeal of the tax on Statebank circulation is concerned, as a substitute for the existing silver law, most of the Democrats who have expressed themselves as in favor of it in Washington are men who would be glad to vote for unconditional ble that a dinner will be held in one of the restaurants in the Fair Grounds.

Patriotic songs by a choir of 100,000 voices are to be one of the features of the Fourth of July celebration at the Fair. The singing is to be under the direction of Silas G. Pratt. Trained choirs of 2,000 or 1,000 singers will be placed at the four sides of the grand court and so directed as to sing in unison certain familiar selections, the entire assemblage Johing with them, so as to constitute a vast chorus of at least 100,000 singers. Each separate section will have a leader and be supported by a large hand of musicians, all being connected by means of electricity, so that Mr. Pratt may indicate the exact time to all alike. The programme will be as follows:

The Doxology, with a salate of cannon to punctuate each sentence, and with special ceremonles of the National colors; "The Siar Spangled Banner," sung by the people in unison, with the waving of flags on all buildings and by the throng of people present; "Columbia, the Gem of the Ocean;" "America." At the conclusion of the ringing of the Liberty Bell the Doxology will be repeated and the new pariotic hymn, "Love and Liberty," by Mr. Pratt, will be sung. For the evening it is proposed to invite specially drilled choirs to sing upon the lagoon or grand court songs familiar to the American people.

HONORED FOR GALLANTRY BEFORE ATLANTA.

Washington, June 24.—Under general authority of an act of Congress authorizing the presentation of medals to officers specially commended by their superior officers for gallantry in the field. Secretary Lamont to-day presented a medal of honor to H. W. Lawton, late captain and lieutenant-colonel and inspector-general, U. S. Army, "for distinguished gallantry in the battle at Atlanta, Ga., August 3, 1864." The circumstances for which Colonel Law-ton is thus publicly commended occurred during the Atlanta campaign, and in front of Atlanta, when Colonel O. D. Hard, of the 30th Indiana Volunteers, reported: "The success of this assault was due mainly to the intelligent dispositions made by Captain Law-ton, and to his personal courage and stubborn resistance of the cnemy's repeated chapters."

THE FALL IN THE PRICE OF COTTON. Washington, June 24 (Special).-Intelligent cotton growers in this country have begun to realize that the steady fall in price of that staple is due neither to the robber tariff," as Mr. Mills and other free-traders have constantly asserted, nor to the fallure of the attempt to force the free and unlimited coinage of "cheap" sliver dollars, as Mr. Bland and other free silver men have so glibly declared, but to the steadily increasing cotton output of the world. > MR. TARSNEY'S BALD-HEADED PENSIONER. HE TURNS UP IN RHODE ISLAND, WHERE HE DRAWS OF A MONTH FROM THE

GOVEANMENT.

Washington, June 24.-Mr. Tarsney's bald-headed pensioner has been found, according to a story made public this morning. In February last Representalive Tarsney, of Missourt, delivered a speech in the House, in which he made the following statement:

"I speak not in jest, but in sober truth, and from the record, when I declare to this House and to the country that pensions have been granted on accoun of loss of hair-on account of baldness. Think of the diminishing effect upon a man's capacity to earn of the Lild Congress accomplished absolutely nothing a support by manual labor that must result from the disability of baldness."

A week later, in a batch of correspondence sub mitted to the House which passed between Commis sioner of Pensions Raum and Medical Referee Ingraham, of the Pension Office, the statement of Mr. Tarsney was dealed by the Pension Bureau. Representative Gront submitted this correspondence, together with a letter from Commissioner Raum, in which the latter stated that he "felt confident Mr. Tarsney the latter stated that he "felt confident Mr. Tarsney | 3 to 2. The result may be different when the collegians had been misinformed." Mr. Tarsney in reply said | meet at New-Haven. he could not give the name of his informant, because

was published. Dr. Warren Holt, of Missouri, a medical examiner in the Pension Office, it was said later, had given Mr. Tarsney the information that brought forth Commissioner Raum's denial. Dr. Holt was dismissed from the Pension Office on March 2 last "for cause," Dr. Holt was not able to point out any case of

baldness which had been pensioned, but by acci-dent yesterday the following remarkable case was dent yesterday the following remarkable case was discovered:

Allen G. Peck, of Company H, 1st Rhode Island Light Artillery, received a pension on October 19, 1su1. Certificate No. 670.175 was issued to him, and the case was ordered to be dated from March 1, 1884, and the arrearages of 84 a month amounted to about \$304. The records of the Pension Bureau developed the fact that no other cause was given as the reason for the allowance of Mr. Peck's claim than "loss of hair," as a result of typhoid fever.

Efforts, it is said, will now be made to have Dr. Holt reinstated.

THE PATENT OFFICE DISBARMENT CASES. Washington, June 24.-The hearing of testimony in the Patent Office disbarment cases was closed into this afternoon, and by agreement of counsel July o was set for the hearing of the argument.

The feature of to-day's proceedings was the testi-

mony of Mr. Simonds, who said that these event about which all the testimony had been given were the sequence of something beginning considerably earlier. Some two months after he became Commissioner of Patents there came before him, by regula appeal from the lower tribunals of the office, the question whether the application of Daniel Draw baugh for improvements in telephones, filed April 3 1884, was barred by reason of public use and sale the Edison microphones for more than two years prior to the filing of the Drawbaugh application of April 3, 1884. On October 28, 1891, he decided that statutery bar existed; and that decision was pub-lished in the "Gazette" of November 3, 1891.

writing upon the status and condition of the applica-tion of Emil Berliner for patent on telephones which had been pending in the Patent Office since 187 It appeared therefrom that in the regular course of events in the office the Berliner application was their ready for issue and had been ready for issue for some years, except for a threatened or possible interference with this Drawbaugh application over the question of priority of invention, in case the Drawbaugh application had been victorious upon the question of two years' public use; but as the Drawbaugh appli-cation had been killed, so far as the Patent Office was treated the Berliner application like any other and ordered it to issue, and it did issue ber 17, 1891, to the American Bell Telephone Com pany, the assignce of Emit Berliner. About a year had elapsed, when one day the Attornes General of the United States (Mr. Miller) called upon him and said he had under consideration the project of bring a sait in the name of the Government to repeal and annul the Berliner patent of November 17, 1881. and gave an opportunity for the expression of any opinion which he (Mr. Smonds) might choose to make. He told the Attorney-General that he had no opinion about it to express; that when he issued the Berliner patent he performed and mished his duty in the premises.

THE GIANTS DROP BACK AGAIN BEATEN BY THE QUAKER CITY TEAM AFTER A SLUGGING MATCH OF NEARLY THREE HOURS. Philadelphia, June 24.—The bahar crowd of the season saw Philadelphia win to-day's game from New York in the eleventh inning. The game was fast such as would delight a big crowd, every species of play and misplay being

exhibited.

In the minth imaing, with two out, Hamilton got his base on balls, stole second and third and crossed the plate on Ward's fumble of Thompson's slow hit, theing the score. Philadelphia won in the eleventh by hitting Baldwin free-

ly. Schmidt and Carsey started in as the opposing pitchers, but after New-York had made twelve runs and Philadelphia eight they were taken out and Baldwin and Vickery substituted. Keily was hurt on the knee by a foul tip in the eleventh and Militau took his pace. Attendance PHILADELPHIA.

Cleveland, June 24.-Superior batting when hits were needed won the game for Cleveland to-day, although Pits. burg played finely. Cuppy's pitching was the main stambling block in the way of the "Pirates." Childs and O'Connor batted the ball hard and almost invariably when there were men on bases. The fielding of the Clevelards was perfect, barring a low throw by McKean. Cleveland's victory to-day gives them seven victories out of the nine games played with that team. Attendance 4,376. The

Boston, June 24.—The Bostons wound up the'r home series of games by taking one from the Baltimores this afternoon. Staley was invincible in every inning but one, the fifth, in which he was hit for four singles in succession and the visitors made two carned runs. Hawke gave seven men their bases on balls, but with men on a base he neaved to be effective. Both trans payed with a

AT CENTRAL PARK NETS.

The Central Park open handicap teams tournament began yesterday afternoon on the lower teams grounds. Thirty players of all grades of strength were entered, and many dively contests per played in the early round. Few of the stronger players played together, but notably good work was done by Paret, Everett, Haight and Colwell. Ripley managed to get in four dence sets in the six he played in the first two rounds. The tournament is a success, and the gradifying feature is the rement is a success, and the graditying feature is the response made by the poorer players to the committee's
